

# WESTMINSTER™

Offering a modern twist to a traditional fireplace application, the decoflame® Westminster™ is part of the made to measure range of decoflame® bioethanol fireplaces.

This complete fireplace model comprises:

- beige sandstone mantelpiece/surround
- insert with 70mm frame
- basket with Denver e-Ribbon Fire™ or manual burner

Alternatively, the Westminster™ can be manufactured in bespoke sizes in order to fit into an existing fireplace opening or mantelpiece (the scope of delivery will then exclude the sandstone surround).

If desired, the basket with either choice of burner can be supplied separately and in any desired dimensions in order to revive an existing, formerly wood-burning fireplace.

Furthermore, it is possible to add decór details as balls, legs and front trims across the basket and frame of the insert.

<b>Materials</b>	Powder-coated aluminium and decór in steel or brushed/polished stainless steel
