

# ATLANTIC TOWER™

Being part of the Atlantic series, the decoflame® Atlantic Tower™ is the smallest model available in this series. Just as all the other Atlantic models, it is executed in aluminium, stainless steel and hardened glass.

The vertical layout of the Atlantic Tower™ makes it well suited for smaller settings like in kitchens, bathrooms or hung on a column. The Atlantic Tower™ features the design-protected decoflame® burner on which the flame intensity is steplessly adjustable. The tempered glass screen to the front ensures an efficient convection effect and provides an even heat distribution in the room.

<b>Finish</b>	Powder-coated and brushed stainless steel
<b>Materials</b>	Stainless steel and tempered glass
<b>Weight</b>	17kg
<b>Burner Volume</b>	2.5 litres
<b>Heat Efficiency</b>	2.5 - 4.4 kW/h
<b>Burning Duration</b>	4-8 hours (depending on flame intensity)
