

ATLANTIC TWIN™

As largest models of the Atlantic series, the decoflame® Atlantic Twin™ has been exclusively designed for larger room sizes. Just as all the other Atlantic models, it is executed in aluminium, stainless steel and hardened glass.

The Atlantic Twin™ features two design-protected decoflame® burners on which the flame intensity is steplessly adjustable. The tempered glass screen to the front ensures an efficient convection effect and provides an even heat distribution in the room.

Finish	Powder-coated and brushed stainless steel
Materials	Stainless steel and tempered glass
Weight	58kg
Burner Volume	8 litres
Heat Efficiency	7.2 - 14.4 kW/h
Burning Duration	4-8 hours (depending on flame intensity)
